HATCH AMENDMENT

The school district is committed to enforcing the Protection of Pupil Rights Amendment (PPRA), 20 U.S.C. 1232h, included in the Goals 2000 Educate America Act of 1994. PPRA applies to all funding provided by the United States Department of Education and seeks to protect the rights of parents to inspect surveys or instructional materials if these materials or surveys are funded by the United States Department of Education.

With respect to survey activities, survey materials, evaluation materials, and instructional materials used by students and funded by the United States Department of Education, the school district will:

1. Make such materials available for inspection by parents.
2. Obtain written parental consent if students are required to participate in a survey, analysis or evaluation that reveals information such as:
 - a. Political affiliations
 - b. Mental and psychological problems potentially embarrassing to the student and his/her family
 - c. Sexual behavior or attitudes
 - d. Illegal or self-incriminating behavior (such as use or possession of tobacco, alcohol or other drugs)
 - e. Critical appraisals of other individuals with whom respondents have close family relationships
 - f. Legally recognized privileged or analogous relationships, such as those of lawyers, doctors and ministers
 - g. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such programs)

More information about student surveys can be found in Miami Board of Education Policy *EK-R1: Testing Program, Student Surveys, Regulation*. This policy can be found at https://www.miami.k12.ok.us/district/board_of_education

DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA) requires that the district, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your students' education records. However, the district may disclose appropriately designated directory information without written consent, unless the district is advised to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the district to include this type of information from your student education records and certain school publications. Examples include: a Playbill, showing your students role in a drama production, the annual yearbook, honor roll or other recognition lists, graduation programs, and sports activity programs; such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy, if released, can also be disclosed to outside organizations without parents' prior written consent. Outside organizations include but are not limited to, companies that manufacture class rings or publisher books. In addition, two federal laws required local educational agencies (LEAs) receiving assistance under the elementary and secondary Education Act of 1965 to provide military recruiters, upon request, with 3 directory information categories – names, addresses and telephone listings. Unless parents have advised the LEA that they do not want their students' information disclosed without their prior written consent.

The district has designated the following information as “directory information” and it will disclose that information without prior written consent:

- the student's name
- the names of student's parents
- the student's address
- the student's telephone listing
- the student's electronic mail address
- the student's date and place of birth
- the student's dates of attendance
- the student's grade level (ie. first grade, tenth grade, etc)
- the student's participation in officially recognized activities and sports
- the student's degrees, honors and awards received
- the student's weight and height, if a member of an athletic team
- the student's photograph
- the most recent educational agency or institution attended

More information about FERPA rights and directory information can be found in Miami Board of Education Policy *FL-R1: Compliance with Family Educational Rights and Privacy Act of 1974, Regulation*. This policy can be found at https://www.miami.k12.ok.us/district/board_of_education

INTERNET AND OTHER COMPUTER NETWORKS ACCEPTABLE USE AND INTERNET SAFETY POLICY

CITATION: MIAMI BOARD OF EDUCATION POLICY EFBCA

The Miami Public Schools district is pleased to make available to students and staff access to interconnected computer systems within the district and to the Internet, the worldwide network that provides access to significant educational materials and opportunities.

In order for the school district to ensure the continued accessibility of its computer network and the Internet, all students and staff must take responsibility for appropriate and lawful use of this access. Students and staff must understand that one person's misuse of the network and Internet access may jeopardize the ability of all students and staff to enjoy such access. While the school's teachers and other staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.

Below is the Acceptable Use and Internet Safety Policy ("policy") of the school district and the Data Acquisition Site that provides Internet access to the school district. Upon reviewing, signing, and returning this policy as directed, each student and staff member agrees to follow the policy and will be given the opportunity to enjoy Internet access at school. If a student is under 18 years of age, he or she must have his or her parent or guardian read and sign the policy. The school district shall not provide access to any student who, if 18 or older, fails to sign and submit the policy to the school as directed or, if under 18, does not return the policy as directed with the signatures of the student and his/her parent or guardian.

Listed below are the provisions of the agreement regarding computer network and Internet use. The district has designated a staff member to whom users may direct questions. If any user violates this policy, the user's access will be denied or withdrawn, and the user may be subject to additional disciplinary action.

Personal Responsibility

By signing this policy, the user agrees not only to follow the rules in this policy, but also to report any misuse of the network to the person designated by the school for such reporting. Misuse means any violations of this policy or any other use that is not authorized under this policy, and having the effect of harming another or his or her property.

Term of the Permitted Use

A student or staff member who submits to the school, as directed, a properly signed policy and follows the policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Students and staff will be asked to sign a new policy each year during which they are students or staff members in the school district before they are given an access account.

Acceptable Uses

1. Educational Purposes Only. The school district is providing access to its computer networks and the Internet for educational purposes only. If the user has any doubt about whether a contemplated activity is educational, the user may consult with the person(s) designated by the school to help decide if a use is appropriate.
2. Unacceptable Uses of Network. Among the uses that are considered unacceptable and which constitute a violation of this policy are the following:
 - a. Uses that violate the law or encourage others to violate the law. Do not transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is prohibited by the school district's student discipline policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, the user should assume that all materials are protected unless there is explicit permission on the materials to use them.
 - b. Uses that cause harm to others or damage to their property. For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than the user is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "Trojan horse," "time bomb," or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.
 - c. Uses that jeopardize the security of student and staff access and of the computer network or other networks on the Internet. For example, do not disclose or share your password with others; do not impersonate another user.
 - d. Uses that are commercial transactions. Students, staff, and other users may not sell or buy anything over the Internet. The user should not give others

private information about the user or others, including credit card numbers and social security numbers.

3. Netiquette. All users must abide by rules of network etiquette, which include the following:
 - a. Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.
 - b. Avoid language and uses that may be offensive to other users. Do not use access to make, distribute, or redistribute jokes, stories, or other material that is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.
 - c. Do not assume that a sender of email is giving his or her permission for the user to forward or redistribute the message to third parties or to give his/her email address to third parties. This should be done only with permission or when the user knows that the individual would have no objection.
 - d. Be considerate when sending attachments with email (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format that the recipient can open.

4. Cyber Bullying - Cyber bullying is when one or more people intentionally harm, harass, intimidate, or reject another person using technology. This includes but is not limited to the following:
 - a. Sending mean or threatening messages via email, IM (instant messaging), or text messages.
 - b. Spreading rumors about others through email, IM, or text messages.
 - c. Creating a Web site or MySpace (or other social-networking) account that targets another student or other person(s).
 - d. Sharing **nude**, fake or embarrassing photos or videos of someone with others via a cellphone or the Web.
 - e. Stealing another person's login and password to send mean or embarrassing messages from his or her account.

It shall be the policy of Miami Public Schools that cyber bullying will not be tolerated under any circumstances. A student caught violating this policy will lose computer privileges and these actions may result in further disciplinary action including suspension or expulsion from school of the student(s) involved. In addition, violators and their parents/guardians may be subject to civil and/or criminal penalties as specified by Oklahoma and/or federal law.

Internet Safety

1. General Warning; Individual Responsibility of Parents and Users; All student users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged students.

Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guides to materials to shun. If a student or staff member finds that other users are visiting offensive or harmful sites, he or she should report such use to the appropriate school designee.

2. **Personal Safety.** Be safe. In using the computer network and Internet, the user should not reveal personal information such as the user's home address or telephone number. The user should not use his/her real last name or any other information which might allow a person to locate the user without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone "met" on the computer network or Internet without a parent's permission (if the user is under 18). Regardless of the user's age, the user should never agree to meet a person the user has only communicated with on the Internet in a secluded place or in a private setting.
3. **"Hacking" and Other Illegal Activities;** It is a violation of this policy to use the school's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.
4. **Confidentiality of Student Information;** Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by law, for internal administrative purposes or approved educational projects and activities.
5. **Active Restriction Measures;** The school, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) pornographic, or (3) harmful to minors. We are using Palo Alto for our technology protection measure (internet filtering software) to ensure that users are not accessing such depictions or any other material that is inappropriate for minors.
 - a. Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 17 and older.

- b. The term "harmful to minors" is defined by the Communications Act of 1934 (47 USC Section 254 [h][7]), as meaning any picture, image, graphic image file, or other visual depiction that is taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
6. All students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response.

Privacy

Network and Internet access is provided as a tool for the user's education. The school district reserves the right to monitor, inspect, copy, review, and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the school district and no user shall have any expectation of privacy regarding such materials.

Failure To Follow Policy

The user's use of the computer network and Internet is a privilege, not a right. A user who violates this policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the school district may refuse to reinstate for the remainder of the student's enrollment or the staff member's employment in the school district. A user violates this policy by his or her own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The school district may also take other disciplinary action in such circumstances.

Warranties/Indemnification

The school district makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this policy. It shall not be responsible for any claims, losses, damages, or costs (including attorney's fees) of any kind suffered, directly or indirectly, by any user (or his or her parents or guardian) arising out of the user's use of its computer networks or the Internet under this policy. By signing this policy, users are taking full responsibility for their own use, and the user who is 18 or older or the parent(s) or

guardian(s) of a minor student are agreeing to indemnify and hold the school, the school district, the Data Acquisition Site that provides the computer and Internet access opportunity to the school district and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or the parent(s) or guardian(s) of a minor student agree to cooperate with the school in the event of the school's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a school computer or on another computer outside the school district's network.

Updates

Users, and if appropriate, their parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new policy reflecting developments in the law or technology or changes in district policy. Such information must be provided by the user (or his/her parents or guardian) or such new policy must be signed if the user wishes to continue to receive service. If after account information is provided, some or all of the information changes, the user must notify the person designated by the school to receive such information.

Section I Academics/Counseling Services

GRADING POLICY

The grades A, B, C, D, F, I and NG will be used to indicate the level of performance of all students in Miami High School. Along with scholarship such factors as initiative, attitude, cooperation, attendance and individual Improvement may be taken into consideration when determining the students final grade. Grading is cumulative by semester. Mid-term progress grades are given at the end of the first and third quarters; final semester grades are given at the end of each semester. No second or fourth quarter grades are given. The letter grades used will indicate the following degree of achievement:

<u>Percentage</u>	<u>Letter</u>	<u>Grade Description</u>
100-90	A	Excellent-superior quality of work
89-80	B	Above Average-good quality of work
79-70	C	Average-satisfactory quality of work or satisfactory progress in terms of ability
69-60	D	Below expectation of quality
59-below	F	Failure to meet minimum quality of work
	I	Incomplete- an extended amount of time to complete course requirements
	NG	No Grade-will not be averaged into GPA

Grade reporting shall be indicated as a percentage score with the letter grade conversion scale on the reporting document. Advanced placement and below grade level of achievement shall be indicated on the reporting document.

EXTRA CREDIT POLICY

If a teacher elects to allow extra credit assignments, they shall meet the following criteria:

1. Shall be subject to area related.
2. Shall not exceed $\frac{1}{3}$ letter grade value per 18 week grading period.
3. Shall Not be allowed in lieu of required assignments.

LATE WORK POLICY

The classroom teacher shall not accept class assignments that are determined outside of a teacher's specific late work policy.

NO GRADE POLICY

Students that accumulate more than 10 absences (other than school related activities) will receive a "No Grade". Therefore, even if a student earns a passing grade, he/she will not earn the credit for that class. A student may have the opportunity to make up to five days of absences up by attending Saturday sessions.

GRADE POINT AVERAGE/CLASS RANK

Because of the considerable rigor required in Advanced Placement, grades in AP courses will be weighted on a five-point scale. Conversion will be as follows:

Grade	AP Scale	Non AP Scale
A	5	4
B	4	3
C	3	2
D	1	1
F	0	0

*Miami High School will base class rankings on the student weighted GPA.

HOMEWORK POLICY

Assigned homework is any work (questions, problems, readings, projects, etc.) that is to be completed at a particular time and that will be graded and/or checked. Students should have the knowledge to complete such work. Long-range projects are sometimes assigned with progress expected and checked periodically. Late work assignments may be accepted but may be at a reduced credit per the specific teacher's late work policy.

VIRTUAL DAY EXPECTATIONS

MPS Virtual Day Expectations

1. Check your teacher's Canvas/Seesaw assignments on virtual days. Read announcements and instructions for all assignments, and watch all videos - even if you think you already know all the info. Remember to log in using Classlink.
2. Check your school Gmail account twice a day, first thing in the morning, and the last thing before you log off for the day.
3. Ask SPECIFIC questions if you don't understand, then CHECK for a teacher to reply to email and/or video! "I don't understand" or "I need help" are too broad for us to know how to help - be as specific as possible! Taking screenshots is also helpful! Teachers will set and communicate due dates for each grade/subject.
4. Students are required to complete the daily modules and assignments for each virtual day in order to receive credit.
5. Students are expected to take care of all technology; Chromebooks, iPads, and hotspots.

6. If your student completes a paper packet, the completed packet is due when we return to in-person instruction.

ACADEMIC DISHONESTY

Any action taken with the intention of obtaining credit for work which is not one's own is considered academic dishonesty. The action may include, but not limited to, the following:

- Submitting another student's work as one's own work.
- Obtaining or accepting a copy of tests or scoring devices.
- giving or obtaining test questions or answers from a member of another class.
- Copying from another student's test or computer file, or allowing another student to copy during a test or computer program.
- Using materials which are not permitted during a test.
- Plagiarism (presenting as one's own material taking ideas, writings, etc from another and submitting that work as one's own).
- Copying or having someone other than the student prepare the student's homework paper, paper project, laboratory report, computer program or take-home test for which credit is given.
- Permitting another student to copy or write another student's homework, project, report, paper, and computer program or take-home test.
- Accessing restricted computer files without authorization.
- Typing materials including computer software, in violation of copyright law.

The disciplinary consequences for academic dishonesty will be a 0 on the affected assignment and one day ISS or a Saturday Session as determined by school administration. Additional or alternative disciplinary consequences may be administered at the discretion of the school administrator handling the situation.

GRADE CLASSIFICATION

Miami High School has adopted a schedule to allow students to enroll in rigorous academic courses and participate in service, activity, and athletic programs. Although a minimum of **23 credits** is required for graduation, students are expected to complete a combination of **23** credits in academic subjects and activities. Classification is based on the year in high school and accumulation of a sufficient number of credits each year to enable a student to graduate at the end of four years of high school.

High school classifications are as follows:

Freshman:	less than 5 Credits
Sophomore:	2nd year of high school and completion of a minimum of 5 credits
Junior:	3rd year of high school and completion of 12 Credits
Senior:	4th year of high school and completion of a minimum of 18 Credits

MAKE-UP WORK POLICY

If you are absent, it is your responsibility to check with each teacher regarding work or assignments you may have missed. This is not the teacher's responsibility, it is yours.

1. Make-up work will be expected of you, whether the absence was school-sponsored or otherwise. Work/credit made up for unexcused absences is at the teachers' discretion.
2. Following a period of the absences that are not school activities, you will be allowed a period of time equivalent to the number of days missed plus one day in order to complete any work missed.
3. For a period of absences that are school activities, assignments are due on the scheduled due date, regardless of a student's attendance at school on that date. Teachers have discretion on whether to extend due dates for student absences that are school activity related.
4. If a student is absent two or more days, he/she may request paper assignments by emailing teachers. Parents should realize that it takes at least 24 hours for teachers to prepare assignments. Most assignments will be found on a student's Canvas account.
5. A grade of "0" will be given for all work not made up by the end of this period.
6. Extra credit may not exceed one third grade point.

REPORT CARDS

A report card is a copy of the student's progress. The student will receive a mid-term progress report at the end of the first 9 weeks. The student will receive a report card at the end of the first semester. The student will receive a mid-term progress report at the end of the third nine weeks. The students will receive a report card at the end of the second semester. Digital copies of midterm and semester report cards can also be obtained on PowerSchool. At the end of the year, report cards should be picked up at the high school office.

SCHOLASTIC ELIGIBILITY POLICY

Miami High School Prides itself on Academic Excellence. Therefore, eligibility requirements stated below must be met by all students in all courses regardless of a student's grade level or requirement for graduation. We at Miami High School realize this exception goes above and beyond OSSAA eligibility.

Section 1- Semester Grades (OSSAA required Eligibility)

1. A student must have received a passing grade in any five subjects counted for graduation that he/she was enrolled in during the last semester he/she attended 15 or more days.
2. If a student does not meet the minimum scholastic standard he/she will not be eligible to participate during the first six weeks of the next semester he/she attends.

3. A student who does not meet the above minimum scholastic standard may regain his/her eligibility by achieving passing grades in all subjects he/she is enrolled in at the end of the six-week period.
4. Pupils enrolled for the first time must comply with the same requirements of scholarship. The passing grades required for the preceding semester should be obtained from the records from the school last attended.

Section 2- Student Eligibility during a Semester

1. Scholastic eligibility for students will be checked at the end of the third week of a semester and each succeeding week thereafter.
2. A student must be passing in all subjects he/she is enrolled in during the semester. If a student is not passing all subjects enrolled in at the end of the week, he/she will be placed on probation for the next week.. If a student is still failing one or more classes at the end of their probationary week, they will be ineligible to participate during the next week.. The ineligible periods will begin on Monday and end on Sunday. Eligibility rules pertain to all school-sponsored activities (exemption possible with courses that have Performance Based grading and the event is Non-OSSAA recognized with principal approval).
3. A student who has lost eligibility under this provision must be passing all subjects in order to regain eligibility. A student regains eligibility under rule 3 with the first class of the new 1 week period (Monday through Sunday).
4. "Passing grade" means work of such character that credit would be entered on the records during the semester closest to that time.
5. Any student who owes money for missing, damaged or lost textbooks, library books, lunch fees, damaged school property, or school device or activities fees for clubs will be ineligible to participate in any extracurricular activities. The student will become eligible once the fees are paid or an agreed upon payment plan is put into place by the administration and the student.

Extracurricular activities are activities that are not part of the academic day such as but not limited to: dances, athletics, clubs, field days and any other activity that would not affect a student's academic standing.

Seniors must be passing all classes needed to graduate, plus have any **Courseware** classes completed in order to walk at graduation.

ACCIDENTS/ILLNESS

Should a student become ill or seriously injured at school, office personnel will notify the parents. The students' correct address and telephone number where a parent may be reached should always be on file in the office. Students **MUST CHECK OUT** with the office before leaving school. If the student becomes too ill to stay in class, the student should go to the office or the nurse's office.

ASSEMBLIES

During assemblies, all students will act as mature, responsible students and will show consideration to speakers or performers by giving them their undivided attention. By doing so, students of Miami High School display both self-respect and school pride. When each student demonstrates these qualities, the school spirit, the Wardogs Spirit, helps everyone accomplish more.

BUS SERVICE

Buses are provided for students to ride to and from school. If a student does not behave or use good manners, the student may be invited to walk. If students have difficulty, discuss it with the driver. Do not open windows. Arms and hands are to remain inside the bus at all times. Sit properly in the bus seats, not on the back of the seats. Students may be restricted from riding the bus, pending a conference with parents, the transportation department, and the principal. After the conference, the principal shall decide what action should be taken. The parent must assume a major portion of the responsibility for the conduct of his/her student while riding the bus. If this privilege is revoked, the parent must provide transportation for his/her child.

CLASSROOM VISITATION (MIAMI BOARD of EDUCATION POLICY GJA)

In order to provide school children with a reasonable opportunity to study and learn, it is the policy of the Miami Board of Education to restrict classroom visitation to a minimum.

Any person who needs to visit a classroom or other school facility must obtain permission from the building principal's office. Visitors on school property without permission may be asked to leave the premises.

The building principal is directed to establish appropriate procedures to ensure compliance with this policy. Such procedures will include posting notices at the entrance to the school building. The notices will require visitors to report to the principal's office before visiting any classroom or other facility.

The principal is authorized discretion in permitting visitation, and the Board of Education declares its support of any decision made by a principal in denying visitation to any person.

Classroom visitors will respect classroom decorum and will not interrupt the class in any way. Visitors who disrupt the classroom in any manner will be required to leave the school grounds.

DAILY ANNOUNCEMENTS

Announcements of activities will be included in a Daily Bulletin issued from the principal's office. Announcements are read to all classrooms during the 2nd and 5th hour each day. 70 O.S. Section 10-105

MIAMI BOARD OF EDUCATION POLICY FDC-R1 ATTENDANCE POLICY (REGULATION)

The board of education believes that attendance in regularly scheduled classes is a key factor in student achievement. However, it is important for those students who are ill to stay home when sick. Students who have a fever or a measured temperature greater than or equal to 100 degrees Fahrenheit should not be at school or school activities.

The board recognizes, however, that the co-curricular program of the school also has educational benefits. Therefore, it shall be the policy of this board to minimize absenteeism from regular classes while providing students the opportunity to participate in co-curricular activities.

ABSENCES

Excused absence will be granted for the following reasons:

1. Personal or family illnesses
2. Medical appointments
3. Legal matters, including service on a grand, multicounty grand, or petit jury *
4. Extenuating circumstances deemed necessary by the principal
5. Observance of holidays required by a student's religious affiliation.

It is the responsibility of the parent to notify the school if a child is to be absent for one of the above reasons. The school will contact those students' parents who do not call. If no contact is made, the parent must send a note or call the day the child returns before the student can be excused. The student may promptly make up all work missed without penalty. It is the responsibility of the student, on the day of return, to make arrangements to see that the work is made up.

The district will not require medical documentation to support personal or family illness that results in an excused absence. However, students will be required to make up any work that has been missed. Student absences due to a severe, chronic, or life-threatening physical or mental illness, injury, or trauma will be exempted from inclusion in the calculation of the chronic absenteeism indicator of the applicable school site so long as the

determination of eligibility is made by the district's medical exemption review committee. The district's medical exemption review committee will be designated by the superintendent on a yearly basis and shall report student absences that are medically exempt to the Oklahoma State Department of Education (OSDE) Office of Accountability.

A student will not be considered absent from school if:

3. In order to take an absence by arrangement, the parent, or guardian, must submit, at least two days prior to the absence, a written request for the student to be

absent. If the request is not made as required, the absence will be treated as an unexcused absence.

4. Absences by arrangement will count against a student's exemption from semester tests.

Unexcused Absence

This is any absence that does not fall within one of the above categories. Work may be made up. Ten unexcused absences will result in that student not receiving credit in that class for the semester.

Truancy

A student is considered truant when absent from the classroom without the knowledge of either the school or the parent or if the parent does not compel the student to attend school.

Tardies

1. A student is tardy who is not in the student's seat when the bell to begin the period sounds.
2. A student who is more than 15 minutes late is counted absent for the period.

Any student who exceeds the 10 day limit for unexcused absences may appeal to the board of education for reinstatement of credit. Consideration will be given as to the reason for the absences as well as to the attempts by parents to minimize the absenteeism.

Chronic Absenteeism

Chronic absentee means a student who is absent 10 percent or more of the school days in the school year exclusive of a significant medical condition, when the total number of days the student is absent is divided by the total number of days the student is enrolled, and school was actually taught in the regular schools of the district, exclusive of Saturdays and Sundays. When a student is identified as a chronic absentee, the Superintendent or designee shall communicate with the student and his/her parents/guardians to determine the reason(s) for the excessive absences, ensure the student and parents/guardians are aware of the adverse consequences of poor attendance, and jointly develop a plan for improving the student's school attendance.

The following procedure will be used to recover absences at Miami High School:

A student can recover up to 5 (five) absences per semester by attending one Saturday session for each absence. Students needing to schedule Saturday sessions will meet with the administration or an administrative designee. It is the student's responsibility to have each of his or her teachers assign make-up work to be completed during the assigned Saturday session. A reminder notice during the week of the assigned Saturday session will be issued to students.

INTERNAL REVIEW COMMITTEE

The Miami Board of Education directs each attendance site to establish an attendance internal Review Committee made up of a minimum of three people. Students who do not meet the minimum attendance criteria and believe that they have extenuating circumstances, may appeal to this committee. All requests must be made in writing to the site principal no later than five days after notification that no credit was earned. The committee must have a hearing within seven days of the parental/student request. The committee shall render a written decision within twenty-four hours of the hearing, which will be kept in the site attendance filed for future reference. Any further appeal must be made to the Board of Education.

ATTENDANCE IN PERFORMING CLASSES

Certain classes at Miami High School, such as dance team, band, chorus, Athletics, cheerleading, speech, Etc., require students to attend after the school day. come to the school and check his/her students out of school. Upon returning to school, the student must produce evidence of their doctor's visit or court appearance.

Parent contact with the office will be necessary before a student is cleared to sign out. If all efforts to contact a parent fail, an administrator may clear the sign out after the parent calls the school and an early dismissal slip will be sent to the student. The student must bring this slip to the office to sign out. If the student does not sign out before leaving school, disciplinary action will be administered. If the student returns the same day, they must check back in with the office. Students must remain in class until the last 10 minutes of that class hour in order to be counted present. If a student leaves before the last 10 minutes of the class, the student will be counted absent. The status of the absence will be according to the reason for the early dismissal.

**Green slips will not be issued to leave campus for lunch or personal errands.

**Failure to follow these guidelines will result in disciplinary action.

RE-ENTRY AFTER AN ABSENCE (hourly/daily)

- Report to the office between 7:40 and 8:00 a.m. with a note from parents/guardian. An absence permit is made for the student with either a phone call or a note is received from the parent/guardians. This permits the student's re-entry to class.
- Re-entry procedure must be completed by 8:00 a.m. or a tardy will be received.
- Doctors notes must be received at the time of re-entry to school.

TARDY POLICY

all teachers will follow the tardy policy in an effort to create fairness to all students. A student is tardy based on each individual teacher's tardy policy. A student that is more than 15 minutes late for a class will be counted absent for that class that day.

Teachers must take attendance in every class.. Tardy/absences will be recorded in PowerSchool.

***Tardy records will start over at the beginning of each semester.

*** Any student more than 15 minutes late will be counted as absent for 1st period.

The office will contact the student when he/she has three tardies in one period or six total, whichever occurs first. At that time, the student will receive the first consequence, and will then receive consequences in order each time they receive another tardy. Administration and/or Dean of Students can discuss possibilities for tardy situations that are not in a consistent manner.

TEN (10) DAY ACTIVITIES RULE

A. ORGANIZATION

1. Pursuant to the state attendance/activities regulations, established by the State Board of Education, September 27th 1984, the Miami Public School stipulates the following policy and format to closely adhere with the existing state regulations.
2. The maximum number of times a student shall be allowed to miss a class. 4 all contests, competitive events, festivals, etc., whether sponsored by the school or an outside agency / organization, shall be ten (10) days per year. excluded from this number is regional, state or national school-sponsored contests for which the student has previously earned the right to compete or attend.
3. Schools shall be required to establish an annual schedule for the year and all activity directors or sponsors shall be encouraged to plan cooperatively in order to permit students to participate to the maximum extent in various activities.
4. An internal activities Review Committee shall be established at the secondary schools composed of the principal 1 academic teacher and three activity sponsors in order to determine the propriety of a progressive contest or activity or to recommend to the local Board of Education any deviations to the 10 day. Limit. In granting an exception to the local policy on activities, the Board of Education shall be guided by the educational benefit or Merit Theory. The obvious benefits of the student attending the contest must outweigh those of remaining in class, or it must be deemed by the board that the student's participation is critical to the interest of a team or school group. It shall, however, be the responsibility of the board to maintain a very stringent adherence to both the restriction and the position that students must be in class if they are to succeed academically.
5. Schools shall be encouraged to enforce vigorously a policy of scheduling regular-season sports events and other recurring contests so that the starting time or travel time will not interfere with instructional time except under unusual circumstances.
6. The sponsor of each activity will keep a record on each individual student involved in their activity. The sponsor will submit this record to the principal at the end of each 9 weeks.. The principal's office will maintain a cumulative record so that the student will not exceed the Ten (10) day maximum in all of that student's activities.

7. Schools shall be encouraged to enforce vigorously a policy of scheduling regular-season sports events and other events or contests so that the starting time or travel time will not interfere with instructional time except under unusual circumstances.
8. A student will be considered as absent for an extracurricular activity even if the local school is the host if a student has to miss class time for that event.

B. PROCEDURE FOR FILING A COMPLAINT REGARDING VIOLATION

1. In the event that any teacher, parent, or student is of the opinion that a violation of the 10-day class period limit has occurred, he should first attempt to investigate the data to support his position. If the investigation indicates that a violation is suspected, a signed written complaint must be filed with the principal who will submit the complaint to the IARC. The complaint must include a list of the students, dates, and classes missed which appeared to exceed the policy limit.

C. PROCEDURE FOR FILING A COMPLAINT REGARDING VIOLATION

1. If a solution to the complaint cannot be reached, the complaint will be presented to the Miami Board of Education.
2. If the complaint is not resolved by the Board of Education, then it will be filed with the Accreditation Department Section of the State Board of Education. Upon receipt of the complaint, the Accreditation Section shall appoint a monitoring team to make an on-site visit and file a written report with the State Board of Education.
3. It shall be the duty of the State Board of Education to conduct a hearing on the matter and determine appropriate penalties to be assessed.

D. NON-COMPETITIVE AND IN-SCHOOL ACTIVITIES

1. School activities of a non competitive nature, which require a student to be out of class, shall be kept to a minimum.
2. Routine School business and Club activities should be scheduled before school, during the lunch hour, and after school, or at a specifically scheduled time announced to the teachers in advance in order to prevent instructional time conflicts.
3. While the Board of Education feels that it is difficult to place any exact restriction on the number of times a student may miss a class period for in-house school activities, the internal activities Review Committee at each School shall be required to assess annually the number of times students are requested or allowed to miss a class period of instruction. Teachers shall furnish data to this committee on the times various students have missed class. The committee shall establish guidelines or control measures if in-house activities are requiring an excessive loss of the students' class time.

SECTION IV: BEHAVIOR/DISCIPLINE

POSITIVE BEHAVIOR PLAN

Positive behavior is an important aspect of Miami High School. The objective is to provide a learning environment that is safe, orderly and where everyone is treated with respect and students are provided the opportunity to reach their full potential intellectually, physically, and ethically.

In order to promote positive behavior, MHS supports the learning environment by using a stringent but consistent and fair behavior policy. All students are expected to be polite, prompt, prepared, and productive. If a rule is broken, students will be held accountable for their action(s) and consequences administered without exception. In order for rules to be effective they must be straightforward, easily enforced, readily administered, and operate as effective deterrent.

MHS has two main goals associated with discipline: (1) to ensure the safety of staff and students, and (2) to create an environment conducive to learning. In order to accomplish these goals, students at MHS will be afforded the following rights and responsibilities:

Student Rights:

- to attend a safe and orderly School
- to receive daily instructions that are competent, well-planned and geared to his/ her individual needs
- to be treated with respect by other students and school personnel
- to receive ongoing progress assessments
- to receive academic and personal guidance as needed

Student Responsibilities:

- To abide by all rules of behavior established by MHS
- to attend school on a regular basis and arrive on time
- to treat other students and school personnel with respect and courtesy
- to make up work missed during an absence
- to dress appropriately for school by following the dress code policy established by the Miami Board of Education
- to be prepared with class materials
- to walk in the hallways and keep hands, body and objects to themselves to avoid injury and disruption.

GENERAL DISCIPLINE PROCEDURE

Teachers will be responsible for their own classroom discipline procedures. A teacher can assign a student detention after a student has broken the rules of the classroom. A detention slip will be sent to the administration and recorded.

DISCIPLINE PLAN

The Miami Junior High and the Miami High School discipline committees have developed a plan that will align discipline for grades 7-12. In this plan we have created a point system that will align with each offense. Each offense will be handled separately and punishment will be issued per incident. The points a student receives for each offense will be banked and continue to add up during the semester. If a student accumulates 90 points during a semester, that student is subject to a suspension of up to 90 days. Point accumulation will start over each semester unless it is a level 8 offense or above. Those points will carry over for the remainder of the school year. Any points accumulated the last two weeks of a semester will carry over to the next semester or the next school year. An accumulation of 45 points will result in a 1-3 days out of school suspension unless a level 8 or greater offense has occurred. An accumulation of 75 points will result in a 3-5 day out of school suspension unless a level 8 or greater offense has occurred. If a student performs multiple offenses from different levels, then Administration has the right to stack the offenses and points together, as well as the punishment.

A student can be disciplined for disruptive or violent acts committed on campus or at a school-sponsored activities; the rationale for this rule is obvious. Students can effectively disrupt the school by off-campus attacks on school officials, their families, animals, or property. Students need to know that such attacks will result in disciplinary action. School authorities may discipline pupils for out-of-school conduct having direct and immediate effect on the discipline or welfare of the school.

Students will be held responsible for their actions when using forms of electronic communication including but not limited to; Youtube.com, Facebook.com, and other internet sites as well as Twitter, blogs, chat rooms, Instagram, and other such mediums. This will minimize the potential of being stalked or becoming the victim of other criminal activity.
3. What students post online might affect their future. Many employers and College Admission Officers review social networking sites as part of their overall evaluation of an applicant. Students should carefully consider how they want to be perceived by those viewing the information posted online. This includes pictures, videos and audio clips, comments and posts.

Consequences may include but are not limited to:

- loss of cell phone privileges
- dismissal from athletic and/or other extracurricular activities/membership
- subject to legal ramifications
- disciplinary actions as stated in the MHS Student Handbook

DUE PROCESS

All policies and procedures in this handbook are subject to Due Process. The first step in due process would be a meeting with the principal. If further steps are needed, the

PROHIBITING HARASSMENT, INTIMIDATION AND BULLYING

MIAMI BOARD OF EDUCATION POLICY FNCD: BULLYING

It is the policy of this school district that bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school. The school district is not required to provide educational services in the regular school setting to any student who has been removed from a public school or private school in Oklahoma

or another state by administrative or judicial process for an act of using electronic communication with the intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or students.

As used in the School Safety and Bullying Prevention Act, "bullying" means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Such behavior is specifically prohibited.

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor

A copy of this policy will be furnished to each student and teacher in this school district.

MIAMI BOARD OF EDUCATION POLICY FNCD-R: PROHIBITING BULLYING (REGULATION)

The Miami Public Schools' student conduct code prohibits bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

Statement of Board Purpose in Adopting Policy

The board of education recognizes that bullying of students causes serious educational and personal problems, both for the student-victim and the initiator of the bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.

2. Substantially disrupts school operations by interfering with the district's mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and is just as disruptive of the district's efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district's primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.
5. Substantially interferes with the district's mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often "passive-target" students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and/or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.
6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.
7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also

disrupts and interferes with the student-victim or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of bullying. This results in a reluctance or resistance to attend school.

Definition of Terms

1. Statutory definition of harassment, intimidation, and bullying:

70 O.S. §24-100.3(c) of the School Safety and Bullying Prevention Act defines the terms "bullying," as including, but not limited to a pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication, directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school's educational mission or the education of any student that a reasonable person should recognize will:

- A. Harm another student;
- B. Damage another student's property;
- C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or
- D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.

2. The "Reasonable Person" Standard

In determining what a "reasonable person" should recognize as an act placing a student in "reasonable" fear of harm, staff will determine "reasonableness" not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.

3. General Display of Bullying Acts

Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the

frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

- A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.
- B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.
- C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.
- D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonably be interpreted as

a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment – also prohibited by Miami Public Schools.

2. Miami Public Schools' Safe School Committee

Student Reporting

Students are encouraged to inform school personnel if they are the victim of or a witness to acts of harassment, intimidation, or bullying.

Staff Reporting

An important duty of the staff is to report acts or behavior that the employee witnesses that appear to constitute harassing, intimidating, or bullying. Employees, whether certified or uncertified, shall encourage students who tell them about acts that may constitute intimidation, harassment, or bullying to complete a report form. For young students, staff members given that information will need to provide direct assistance to the student.

Staff members who witness such events are to complete reports and to submit them to the employee designated by the superintendent to receive them. Staff members who hear of incidents that may, in the staff member's judgment, constitute harassment, intimidation, or bullying, are to report all relevant information to the superintendent or his/her designee.

Parental Responsibilities

Parents/guardians will be informed in writing of the district's program to stop bullying. An administrative response to bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

1. Report bullying when it occurs;
2. Take advantage of opportunities to talk to their children about bullying;
3. Inform the school immediately if they think their child is being bullied or is bullying other students;
4. Watch for symptoms that their child may be a victim of bullying and report those symptoms; and
5. Cooperate fully with school personnel in identifying and resolving incidents.

Discipline of Students

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract

Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

The above consequences will be imposed for any person who commits an act of bullying as well as any person found to have falsely accused another as a means of retaliation, reprisal, or as a means of bullying. Strategies will be created to provide counseling or referral to appropriate services, including guidance, academic intervention, and other protection for students, both targets and perpetrators, and family members affected by bullying, as necessary.

APPENDIX: POLICIES AND PROCEDURES OF MHS

ASBESTOS REMEDIATION POLICY

As a result of our recent building survey concerning asbestos, we have discovered some asbestos-containing materials located in the Miami Junior High and Main Building and Annex.

The removal of any friable or damaged thermal pipe insulation was accomplished during the summer of 1989 in order to limit any future risks.

There are some non-friable materials, which have been identified or assumed to contain asbestos but pose no immediate health risks as long as they remain non-friable.

In the interest of your future safety and in compliance with EPA and State Department of Health regulations, we will be monitoring all identified and assumed asbestos-containing building materials every six (6) months to verify that they have not become friable or damaged.

The AHERA Asbestos Management Plan for the Miami High School Is available for viewing during the normal working hours in the office of the Principal. The management plan for the entire Miami Public School district is available for viewing during normal working hours in the office of the Superintendent.

Should you have any questions, please call the asbestos manager, mr. Martin Dow, at the following number: 918-542-2515 or the superintendent, Mr. Nick Highsmith at the following number: 918-542-8455.

DRUG TESTING POLICY

MIAMI BOARD OF EDUCATION POLICY FNCFD: STUDENT DRUG TESTING PROGRAM EXTRACURRICULAR ACTIVITIES

The Miami Board of Education, in an effort to protect the health and safety of its students from illegal and/or performance-enhancing drug use and abuse, thereby setting an example for all other students of the Miami Public School District, has adopted the following policy for drug testing of students participating in extracurricular activities.

Purpose and Intent

It is the desire of the board of education, administration, and staff that every student in the Miami Public School District refrain from using or possessing illegal drugs. The administration and board of education realize that their power to restrict the possession or use of illegal drugs is limited. The sanctions of this policy relate solely to limiting the opportunity of any student determined to be in violation of this policy to participate in extracurricular activities. This policy is intended to complement all other policies, rules, and regulations of the Miami Public School District regarding possession or use of illegal drugs.

Participation in school-sponsored extracurricular activities such as interscholastic athletics at the Miami Public School District is a privilege. Students who participate in extracurricular activities are respected by the student body and are expected to hold themselves as good examples of conduct, sportsmanship, and training. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs. Additionally, this school district is contracted to follow the rules and regulations of the OSSAA whose rules specifically state: A student under a discipline plan or whose conduct or character outside the school is such as to reflect discredit upon the school shall be ineligible until reinstated.

The purposes of this policy are to prevent illegal drug use, to educate students as to the serious physical, mental, and emotional harm caused by illegal drug use; to alert students with possible substance abuse problems to the potential harms of illegal drug use; to help students avoid drugs; to help students get off drugs; to prevent injury, illness, and harm as a result of illegal drug use; and to strive within this school district for an environment free of illegal drug use and abuse. This policy is not intended to be disciplinary or punitive in nature. The sanctions of this policy relate solely to limiting the opportunity of any student found to be in violation of the policy to participate in any extracurricular activities. There will be no academic sanction for violation of this policy.

Illegal drug use of any kind is incompatible with participation in any extracurricular activities on behalf of the school district. For the safety, health, and well-being of the students of the district, this policy has been adopted for use by all participant students in grades 7-12.

11. Self-referral is when a participant believes he/she will test positive for illegal or performance enhancing drugs, prior to submission for a drug test under this policy, so notifies the principal, athletic director, coach, or sponsor of such belief.

Procedures

A physical examination signed by a parent/guardian is required before a student may participate on a school district athletic team. A urine screen to detect the presence of illegal or performance-enhancing drugs which could have a harmful effect on the prospective athlete's health and athletic performance will be included as part of that physical examination.

Student participants in extracurricular activities shall be provided with a copy of this policy and an extracurricular activities student drug testing program consent form that must be read, signed, and dated by the student, parent or custodial guardian, and coach/sponsor before a participant student shall be eligible to practice in any extracurricular activity. The consent shall provide a urine sample (a) at the beginning of each school year or when the student enrolls in an extracurricular activity; (b) as chosen by the random selection basis; and (c) at any time requested based on reasonable suspicion to be tested for illegal or performance-enhancing drugs. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed consent form.

All extracurricular activities participants shall be required to provide a urine sample for drug use testing for illegal drugs and/or performance enhancing drugs. Extracurricular participants who move into the district after the school year begins will have to undergo a drug test before they will be eligible for participation.

Drug use testing for extracurricular participants will also be chosen on a weekly selection basis from a list of all extracurricular participants in off-season or in-season activities. The school district will determine a weekly number of students' names to be drawn at random to provide a urine sample for drug use testing for illegal or performance-enhancing drugs.

In addition to the drug test required above, any extracurricular participant may be required to submit to a drug use test for illegal drugs or performance-enhancing drugs or the metabolites thereof at any time upon reasonable suspicion by the athletic director, principal, sponsor, or coach of the student.

The school district will determine any necessary fees to be collected from students who are drug tested and when those fees will be collected. The cost of subsequent tests will be borne by the school district or appropriate activity fund.

Any drug use test required by the school district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the school district that uses scientifically validated toxicological methods. The professional laboratory shall be required to have detailed, written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted to safeguard the personal and privacy rights of students to a maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility with an enclosed stall or stalls. The athletic director/sponsor shall designate a coach or other school employee of the same sex as the student to accompany the student to a restroom or other private facility. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the athletic director/sponsor who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications he/she has taken or is taking or any other legitimate reasons for having been in contact with illegal drugs or performance-enhancing drugs in the preceding 30 days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the 24 hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope.

If the initial drug use test is positive, the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six months or to the end of the school year, whichever is shorter. Student records will be retained until the end of the school year.

Confidentiality

If the drug use test for any student has a positive result, the laboratory will contact the athletic director or designee with the results. Procedures for maintaining confidentiality will be practiced. The athletic director or designee will contact the principal, the student, the head coach/sponsor, and the parent or custodial guardian of the student and schedule a conference. At the conference, the student will be given the opportunity to submit additional information to the athletic director or to the lab. The school district will rely on the opinion of the laboratory that performed the test in determining whether the positive test result was produced by other than consumption of an illegal drug or performance-enhancing drug. Under no circumstance will results from a drug test under this policy be turned over to any law enforcement officer or agency.

Appeal

A student who has been determined by the athletic director or designee to be in violation of this policy shall have the right to appeal the decision to the superintendent or the superintendent's designee(s). Such appeal must be lodged within five business days of notice of the initial report of the offense as stated in this policy, during which time the student will remain eligible to participate in any extracurricular activities. The superintendent or designee(s) shall then determine whether the original finding was justified. There is no further appeal right from the superintendent's decision and the decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the superintendent, which shall be final and unappealable.

Consequences

1. First positive test. The student will be suspended from participation in all extracurricular activities for two weeks. The student and parent/guardian must attend counseling two times during the suspension period and one follow-up session. Counseling will consist of a session with the Miami Public Schools counselor and a session with a counseling service provided by the school. Follow-up sessions may be with one or both counselors.
2. Second positive retest. The student will be suspended from participation in any extracurricular activity for the remainder of the semester.
3. Third positive retest. The student will be suspended from participation in any extracurricular activity for 180 school days.
4. Self Referral. A student who self-refers to the athletic director, principal, coach, or sponsor before being notified to submit to a drug test will be allowed to remain active in all extracurricular activities. However, the student will be considered to have committed his/her first offense under this policy, and will be required to retest as would a student who has tested positive.
5. Refusal to submit to a drug test. If a participant student refuses to submit to a drug test under this policy, such student shall not be eligible to participate in any extracurricular activity, including all meetings, practices, performances, and competition for 180 school days, upon completion of which, the participating student shall again be subject to this policy.

The cost per test is subject to change and will be determined by the board of education on an annual basis.

INTERROGATIONS AND SEARCHES-SEARCH AND SEIZURE OF STUDENTS

MIAMI BOARD OF EDUCATION POLICY FNF: SEARCH OF STUDENTS

The Miami Board of Education believes that all students should be free from unreasonable search and seizure by school officials. However, it shall be the policy of the board that the superintendent, principal, teacher, and security personnel shall have the authority to search a student and a student's property when there is reasonable suspicion for such searches. The superintendent is instructed to establish a regulation for board approval that supports this policy.

MIAMI BOARD OF EDUCATION POLICY FNF-R: SEARCH OF STUDENTS (REGULATION)

In accordance with the policy of the board of education, searches of students shall be conducted under the following circumstances:

2. School lockers and school desks are the property of the school, not the student. Students have no expectation of privacy concerning lockers, desks, or other school property. The users of lockers, desks, and other storage areas or compartments have no reasonable expectation of privacy from school employees as to the contents of those areas. Lockers, desks, and other storage areas or compartments may be subjected to searches at any time with or without reasonable suspicion. Students are not to use any school area or property to contain any item that should not be at school. Students shall not exchange lockers or desks or use any lockers or desks other than those assigned to them by the principal.
3. Authorized personnel may search a student, within the limits of state and federal law (or this policy), whenever the student consents to such a search. However,

consent obtained through threats or coercion is not considered to be freely and voluntarily given.

4. Authorized personnel conducting a search shall have authority to detain the student or students and to preserve any contraband seized.
5. Any searches of students as outlined herein will be conducted by an authorized person who is the same sex as the person being searched and shall be witnessed by at least one other authorized person who is of the same sex as the person being searched.
6. Strip searches are forbidden. No clothing except cold weather outer garments will be removed before or during a search.
7. Items that may be seized during a lawful search - in addition to those mentioned in paragraph 1 above - shall include, but not be limited to, any item, object, instrument, or material commonly recognized as unlawful or prohibited. For example: prescription or nonprescription medicines, switchblade knives, brass knuckles, billy clubs, and pornographic literature are commonly recognizable as unlawful or prohibited items. Such items, or any other items which may pose a threat to a student, the student body, or other school personnel, shall be seized, identified as to ownership if possible, and held for release to proper authority.

POLICY ON REPORTING STUDENTS UNDER THE INFLUENCE OF OR POSSESSING NON-INTOXICATING BEVERAGES, ALCOHOLIC BEVERAGES, OR CONTROLLED DANGEROUS SUBSTANCES

This policy shall be distributed to each classroom teacher. Receipts shall be acknowledged in a form to be determined by the superintendent.

REPRODUCTION OF COPYRIGHT MATERIALS

It is the intent of the Board of Education to delineate, in force and abide by the provisions of current copyright laws as they affect the district and its employees. Copyrighted materials, whether they are print or non-print, will not be duplicated unless such reproduction meets "Fair Use" standards or unless written permission from the copyright holder has been received.

Congress has identified four criteria to be balanced in considering questions:

1. The purpose and character of the use, including whether such use is of commercial nature or is for nonprofit educational purposes.
2. The nature of the copyright work
3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
4. The effect of the use upon the potential market for or value of the copyright work.

The Board of Education does not sanction illegal duplication in any form. Employees who willfully disregard the district's copyright position are in violation of board policy; they do so at their own risk and assume all liability and responsibility.
